Career Objective

An enthusiastic and detail-oriented Computer Science Post-graduate with hands-on experience in Linux, AWS cloud services, and DevOps tools like Git, Docker, and Jenkins. Adept at scripting with Bash and managing MySQL databases. Eager to contribute to dynamic DevOps teams and streamline deployment processes. Seeking an entry-level position to kickstart a career in DevOps and cloud engineering.

Education

- **MSc in Computer Science, 2024**
  Sinhgad College of Science, Pune | CGPA: 7.8
- **BSc in Computer Science, 2022**
  SBB Alias Appasaheb Jedhe College, Pune | CGPA: 8.4

Technical Skills

- **Operating Systems** Linux, Windows
- **Cloud Platforms** AWS (EC2, S3, IAM, Route53, Load Balancer, Lambda, CloudWatch, SNS, VPC)
- **Version Control** Git, GitHub
- **Containerization** Docker (Images, Containers, Docker file, Docker Compose)
- **CI/CD Tools** Jenkins (Pipeline setup, Job configuration)
- **IaC Tool** Terraform
- **Scripting** Bash Shell Scripting
- **Database** MySQL, DynamoDB
- **Monitoring** CloudWatch, CloudTrail

Project

1. AWS-Powered Web Hosting

- Website hosting on AWS by creating a custom VPC with Auto Scaling, Application Load Balancer.
- Monitoring using CloudWatch.
- Integrates Simple Notification Service (SNS) for alerts and notifications.
- Hosted MySQL database in a private subnet.

2. DevOps Project

- Streamlined deployment process with minimal manual steps.
- Achieved reliable and repeatable builds using Jenkins and Docker.
- Improved code traceability and version control through GitHub integration.

Certifications

- **Cloud Computing & DevOps** – IrizPro Learning Solutions LLP.
- **DevOps Fundamentals** – Udemy
- **Linux Essentials** – Cisco Networking Academy
- **Docker Essentials** – Cognitive Class.ai by IBM
- **Communication Skills** – TCS iON Digital Learning Hub

Soft Skills

- Strong problem-solving and analytical skills
- Effective communication and teamwork
- Quick learner and adaptable to new technologies.
